WORK EXPERIENCE

Facebook Inc. — **Menlo Park, CA, USA**
Front-end Engineer Intern — June 2019 – September 2019

- Implemented UI pages for an internal tool using React, React hooks and FlowJS.
- Created ents with Ent framework to fetch and write from/to database. Integrated ents with GraphQL configuration.
- Rewrote the backend of the internal tool with hack and EntQL.
- Utilized GraphQL and Relay to query and mutate data in the front end.

JueTech Co. Ltd. — **Shanghai, China**
Front-end Engineer Intern — January 2018 – April 2018

- Realized the front-end of tires management website for Continental, China using Vue.js.
- Developed and deployed the Continental's customer service mini-program on WeChat using WePY framework.

PROGRAMMING PROJECTS

Loop — **Evanston, IL, USA**
Front-end Developer & Open Source Contributor — April 2018 – June 2019

- Developed the website using React, Redux and NodeJS. It's a personal network managing tool in which users can keep track of their connections.
- Utilized GraphQL, Apollo Server, React Apollo Client to query and mutate user data which is stored in Firebase.

NearUs — **Evanston, IL, USA**
Front-end Developer & Open Source Contributor — November 2018 – December 2018

- Developed this mobile app using React Native and Firebase. It finds the optimized hangout spot using the centroid of users.
- Utilized Google Map API to find the nearest hangout spots by category(cafes, pizzeria, etc).

DJProdu — **Evanston, IL, USA**
Front-end Developer & Open Source Contributor — October 2018 – November 2018

- Developed this web app using React, Redux and Material-UI. It's a personal music curation tool for Daily Activities across multiple platforms.
- Utilized GraphQL, Apollo Server, React Apollo Client to custom queries and mutations, and utilized Firebase to host the app and store users' data.

SKILLS

Advanced: HTML5, CSS, JavaScript, ReactJS, React Native, VueJS, Java
Intermediate: Hack, C++, Python, AngularJS
